Limited product permission

This form concerns products proposed for the identified photography session with Michael Ivory Photography LLC. Permission is limited to the products, application areas and provider listed below. Unlisted substitutions require fresh agreement before application.

Sensitivities and choice

I have disclosed known relevant product allergies, sensitivities and prior reactions to the best of my knowledge. I may discuss details privately with the provider rather than record unrelated medical history. Unknown reactions can occur. A patch test, when appropriate, does not guarantee that a reaction will not occur.

Provider safety responsibilities

The provider must use appropriate hygiene, clean tools and suitable products, follow product instructions, discuss requested changes and stop if irritation is reported. This form does not excuse unsafe application, negligence or unlawful conduct, and does not certify anyone's professional credentials.

Right to stop

I may refuse a product or stop application at any time. If discomfort or a reaction occurs, I will notify the provider immediately. The provider should stop, follow appropriate product guidance and obtain medical assistance when needed. This form does not authorize medical treatment or promise any result.

Minors, privacy and separate permissions

For a participant under 18, a parent or legal guardian must complete and sign this consent and remain available. The child may also decline application. No injury claims are waived. No photography, recording, publicity or marketing permission is granted by this form. Relevant product and sensitivity information is used only for session safety and records; avoid unrelated health details.
